Summary

Senior Machine Learning Engineer with 8+ years of experience building production ML systems. Skilled in Python, PyTorch, TensorFlow, and cloud deployment.

Experience

Senior ML Engineer

Acme AI Corp

Jan 2020 - Present

- Led development of NLP pipeline processing 1M+ documents daily
- Built recommendation engine using deep learning, improving CTR by 35%
- Deployed models on AWS using Docker and Kubernetes

ML Engineer

DataTech Solutions

Jun 2016 - Dec 2019

- Developed computer vision models for defect detection using PyTorch
- Built data pipelines with Python, SQL, and Apache Spark
- Implemented A/B testing framework for model evaluation

Education

M.S. in Computer Science from Stanford University, 2016

B.S. in Mathematics from UC Berkeley, 2014

Skills

Python, PyTorch, TensorFlow, scikit-learn, SQL, Docker, Kubernetes, AWS, Git, machine learning, deep learning, NLP, computer vision, data analysis
